Dear Azucena Beltran,

Attached is my proposal to "Save the Coachella Valley Basin" and it's primary initiative of the "Save the Salton Sea Committee". Thank you for this opportunity and I do hope it's not too late to submit this proposal, I know the deadline is by October 12 and it seems my academic side always perceives I have until October 12 5pm. or at least I hope it is the case with this project. Either way, I look forward to following the outcome of these proposals and projects and hope to be included in the presentations being held in a couple of weeks. I also hope to submit my presentation in a timely fashion to you but wanted to go ahead and officially submit my proposal in full.

Sincerely,

Stephanie C. Martin
