NOTICE OF STATE MANDATED SB/DVBE PROGRAM PARTICIPATION REQUIREMENTS

Disabled Veterans Business Enterprise (DVBE) Information

The Department of Water Resources has determined that DVBE opportunity exists and firms responding to this RFP must comply with DVBE Program requirements. Instructions for completing DVBE program requirements are found in Attachment V, DWR 9526 - California DVBE Program Requirements. Please review these instructions carefully. When responding to the DVBE program requirements, firms must use the forms contained within this solicitation. ***Failure to fulfill the DVBE requirement will render your proposal non-responsive and shall be cause for proposal rejection.***

This solicitation also includes DVBE Incentive language. The DVBE Incentive offers firms an incentive calculation for including DVBE subcontractors in their RFP response. Application of the Incentive may place the firm in position to receive award of the RFP. Use of the DVBE Incentive cannot be used to displace a certified small business firm that has been deemed the highest responsive, responsible firm with that of a non-small business. The incentive applied is based on the firm's proposed DVBE commitment. Minimum incentive applied will be three (3) percent and will not to exceed five (5) percent.

Small Business Program Information

If a proposing firm is not a California Certified Small Business and wishes to be considered for the small business calculation preference for this solicitation, proposing firm application for small business must be received by the Department of General Services Office of Small and DVBE Business Services (OSDS) by the proposal due date by close of business. Proposing firms seeking small business certification status must also notify the Department in writing at the time of proposal submission that they have an application for Small Business certification for review and approval at the DGS-OSDS.

Contact the DGS Office of Small Business and DVBE Services (OSDS) at internet website <https://www.dgs.ca.gov/PD/About/Page-Content/PD-Branch-Intro-Accordion-List/Office-of-Small-Business-and-Disabled-Veteran-Business-Enterprise/Certification-Program> or call (916) 375-4940 for certification assistance.

For additional assistance meeting DVBE program requirements or inquiries about Small Business certification, please contact the Department of Water Resources SB/DVBE Program Manager at (916) 653-9813, or email SB.DVBE@water.ca.gov

A. Purpose and Description of Services

DWR is seeking interested and qualified applicants to advance our understanding on the feasibility of water importation by providing independent third-party evaluation services and a feasibility analysis in support of the State's planning objectives for the Salton Sea Management Program (SSMP). The objective of this RFP is to conduct a feasibility study of the 2017 Request For Information (RFI) proposals and to elucidate whether or not water imports to the Salton Sea are achievable.

B. Proposing Firm Minimum Qualifications

The Contractor agrees to assign individuals to deliver the services required in Exhibit A, Scope of Work (SOW) who meet or exceed the qualifications described in the following subsections of this RFP. Proposing firms must include in their proposals any supporting documentation, as needed, for the individual(s) who would perform the required services.

NOTE: Experience cited by the proposing firm as evidence of satisfying the minimum qualification requirements must include work performed within 5 years preceding submission of the Contractor's response to the RFP, and must provide evidence that the Contractor has experience creating and managing independent panels, experience with planning and managing large water resource related construction projects, and have extensive engineering experience in multiple fields.

1. Accessibility and Location – The proposing firm must be able to provide the services identified in the SOW. Proposing firms must have webinar and conference call capability for meetings and events and be capable of travel throughout California.
2. Project Manager – The proposing firm must assign a Project Manager that will be responsible for ensuring the delivery of the SOW. The Project Manager must have a minimum of 10 years of project management experience related to engineering, scientific, and construction programs and projects. The Project Manager is responsible for contract administration and for ensuring deliverables are provided to the California Department of Water Resources (DWR) on time and within budget.
3. References – The proposing firm must submit a minimum of 5 references that can verify the firm's ability to fulfill the tasks indicated in the SOW. Each reference provided must have full contact information, a brief description of the type of work provided to the reference by the firm, and the work's relevance to the tasks in the SOW. By providing the reference list for any portion of this RFP, the Proposer gives DWR and the reference full permission for inquiry by DWR and disclosure by the reference of any information about Proposer, whether such inquiry or information is based on fact, judgment or hearsay. References must confirm completion of the required tasks and services for the described projects and must report above-average performance satisfaction in all task categories.

If subcontractors are utilized, identification of those persons or firms, how and why they were selected, resumes or curriculum vitae (CV) of each major subcontract participant, and a description of how subcontracted work will be controlled, monitored, and evaluated must be included within the proposal package.

- x. More than one proposal from an individual, firm, partnership, corporation or association under the same or different names, will not be considered. Reasonable grounds for believing that any proposing firm has submitted more than one proposal for the work contemplated herein will cause the rejection of all proposals submitted by that proposing firm. If there is reason for believing that collusion exists among the proposing firm, none of the participants in such collusion will be considered in this or future procurements.

7. EVALUATION AND SELECTION PROCESS

- a. The State will put each proposal through a process of evaluation to determine the responsiveness of proposing firms to the State's needs. The final selection will be made on the basis of the highest scoring proposal meeting the specifications.
- b. Proposals containing false or misleading statements or providing references that do not support an attribute or condition claimed by the proposing firm may be rejected. - c. If there are tied proposals, DWR will draw straws to pick the winning proposing firm. The drawing will be witnessed and documented by two or more DWR employees.
- d. The evaluation process will consist of three phases.
 - i. In Phase One, proposals are reviewed to ensure that all documentation has been submitted in compliance with the requirements of this RFP. All considerations of the criterion are addressed with a high degree of confidence in the proposing firm's response.	8
All considerations of the criterion are addressed with the highest degree of confidence in the firm's response. The response exceeds the requirements and demonstrates superior experience and creative approaches.	10

RFP Scoring Rubric for Criteria 4, 6, and 7	Points
Proposal fails to address the criterion, or the proposing firm does not describe any experience related to the criterion.	0
Proposal minimally addresses the criterion, but one or more major considerations of the criterion are not addressed, or so limited that it results in a low degree of confidence in the proposing firm's response.	1
Proposal addresses the criterion, but minor considerations may not be addressed. Some degree of confidence in the proposing firm's response.	2

All considerations of the criterion are addressed with the highest degree of confidence in the firm's response. The response exceeds the requirements and demonstrates superior experience and creative approaches.	5

The DWR Evaluation Team will score the submittals based on percentages for levels of quality for each scoring criterion. The percentages will then be translated to points based upon the weight for each particular factor. For example, under "Effective Timeframes," if a proposing firm's response is considered "Excellent," it will receive 9 points (0.9 x 10). The same approach will be used for all categories, except the scoring of the Cost Proposal.

Percentage of maximum points	Description
Non-Compliant 0%	Fails to address the component or the proposing firm does not describe any experience related to the component.
Poor	Minimally addresses the section, but one or more major

30%	considerations of the component are not addressed, or so limited that it results in a low degree of confidence in the proposing firm's response.
Fair 70%	The response addresses the section, but minor considerations may not be addressed. Acceptable degree of confidence in the proposing firm's response.
Good 80%	The response fully addresses the section and provides a good quality solution. Good degree of confidence in the proposing firm's response.
Excellent 90%	All considerations of the section are addressed with a high degree of confidence in the proposing firm's response.
Outstanding 100%	All considerations of the section are addressed with the highest degree of confidence in the firm's response or proposed solution. The response exceeds the requirements in providing a superior experience and creative approach.

Proposing firms must submit their Cost Proposals on the attached Cost Proposal Worksheet (Attachment I). If no proposal contains a Cost Proposal, which in the opinion of DWR is a reasonable price, DWR is not required to award a contract (Public Contract Code section 10344(d)). Each firm's Cost Proposal score will be based on the ratio of its total cost to the total cost associated with the lowest responsive proposal multiplied by the maximum number of cost points. The Cost Proposal score will be rounded to the nearest whole integer. An example of this calculation is shown below:

$$\frac{\text{Lowest Firm's Total Cost}}{\text{Firm's Total Cost}} \times 24 = \text{Bidder's Cost Score}$$

Cost Score Sample

Firm	Total Cost Proposal	Calculation	Cost Proposal Score
A	\$175,000	$\frac{\$100,000 \text{ (Bidder B)} \times 24}{\$175,000 \text{ (Bidder A)}}$	14
B	\$100,000	$\frac{\$100,000 \text{ (Bidder B)} \times 24}{\$100,000 \text{ (Bidder B)}}$	24
C	\$150,000	$\frac{\$100,000 \text{ (Bidder B)} \times 24}{\$150,000 \text{ (Bidder C)}}$	16

- iii. In Phase Three, Small Business Preferences and DVBE Incentive calculations will be completed as necessary prior to contract award. The application of the Small Business Preference and DVBE Incentives may result in the displacement of a previously high scoring firm.
 1. Proposing firms that are Small Business certified by DGS, Office of Small Business and DVBE Services (OSDS) may receive a five (5) percent preference calculation. The Small Business (SB) preference will be calculated by factoring five (5) percent of the highest scored points and adding those points to that of the certified Small Business.

Example: High Score: 95 points
 Small Business Score: 91 points

$$95 \times 0.05 \text{ SB preference} = 4.75 \text{ points}$$

Small Business Score: 91 points
SB Points: 4.75 points
95.75 points

In the example above, the SB would achieve a high point score and be in line for contract award.

2. The DVBE Program Incentive is applied during Phase Three and may result in the increase of a firm's total points, placing them in line for award. Application of the DVBE Incentive is based on the number of total possible points specified.

The following example is based on 100 total possible points:

Confirmed DVBE Participation	Possible Points Calculation
5% and Over	5% X 100 = 5 Points
4% - 4.99% inclusive	4% x 100 = 4 Points
3% - 3.99% inclusive	3% x 100 = 3 Points
2% - 2.99% inclusive	2% x 100 = 2 Points
1% - 1.99% inclusive	1% x 100 = 1 Point

- a) Once all proposals are evaluated for the factors indicated under the Rating/Scoring Criteria above, the DVBE Incentive will be calculated and those points will be factored into the total points of those firms with lower scores that have identified DVBE participation levels as outlined in the above table. The points applied may result in a firm achieving high points placing them in line for the solicitation award.
 - b) A Small Business firm may be displaced by another firm achieving higher points as a result of the DVBE Incentive application.
 - c) An Evaluation Committee shall conduct the scoring and review the results submitted.
 - d) Only firms that are certified as small business by the Department of General Services, Office of Small Business Certification and Resources, receive a 5 percent preference. The preference is applied by the Department before the contract is awarded.
3. DVBE Incentive Application – Allowable Incentive Amounts
 - a) When the DVBE program is a required component of the solicitation, the minimum acceptable commitment level is three (3) percent. Incentive amounts applied begin at three percent and will not exceed five (5) percent.
 - b) When the Department waives DVBE program compliance from a solicitation, a responding firm's DVBE participation is optional. Firms proposing DVBE participation are eligible to receive a DVBE incentive calculation from one (1) to five (5) percent. The incentive applied will be at the level of proposed DVBE commitment.

Example scale using high score method:

Available points example using sliding scale:

Administrative:	200 points
Technical proposal:	400 points
Cost proposal:	600 points
Total:	1200 points

Confirmed DVBE Participation	Possible Points Calculation:
1% - 1.99% inclusive	1% X 1200 = 12
2% - 2.99% inclusive	2% X 1200 = 24
3% - 3.99% inclusive	3% X 1200 = 36
4% - 4.99% inclusive	4% X 1200 = 48
5% and Higher	5% X 1200 = 60

the example above, there are 60 maximum DVBE Incentive points possible.

Example results using high score method:

Proposing Firm	A	B	C
Responsive/Responsible	Yes	Yes	Yes
Total Points	1050	1155	1125
Eligible Preference	SB	None	SB
SB Preference points achieved	57.75	0	57.75
Points Subtotal	1107.75	1155	1182.75
Rank	3	2	1
DVBE Participation	No (0%)	Yes (5%)	Yes (2%)
Incentive Points Applied	None	60	24
Adjusted Points	1107.75	1215	1206.75
New Rank	3	1	2

4. Order of Evaluation

- Small Business Preference is calculated by multiplying the highest total points achieved by 5% and adding the resulting calculation to the total points of the Small Business firm. In this sample the calculation was based on 1155 points x .05 resulting in 57.75 additional points added to the certified Small Businesses (A and C).
- DVBE Incentive Points are factored by multiplying the DVBE participation (%) identified by the total possible points that could be awarded (1200). This amount is then added to the firm's total points. In the sample above, Firm B had 60 additional points added (.05% x 1200 total points available) to their total points placing them first for award. Firm C received 24 Incentive points,

but this was not enough to place them first for award.

- c) Under the High Score Method, it is possible to displace a high point Certified Small Business with the Application of the DVBE Incentive.

8. TAX DELINQUENT STATUS VERIFICATION

- a. Effective July 1, 2012 [Public Contract Code 10295.4](#), requires state agencies to verify the tax delinquent status of bidders responding to state solicitations.
- b. At the time of bid evaluation, prior to contract award and execution, the State will verify all proposing firms and identified subcontractors as not listed as tax delinquent by the Franchise Tax Board and the California Department of Tax and Fee Administration. Any proposing firms or subcontractor listed as tax delinquent shall result in a proposal rejection and will not be considered for contract award. Proposing firms wanting further clarification can refer to the statute above or to the web sites listed below for additional information.

The State as part of its evaluation process reserves the right to verify, validate, and clarify all information contained in the bid. H. Small Business Program

1. The Small Business Procurement and Contract Act (Gov. Code Section 14835 et. seq.) requires that a fair share of the State's purchases and contracts for goods, information technology services and construction be placed with a certified small business or micro-business. The Act mandates that state agencies:
 - a. Establish participation goals,
 - b. Provide a 5% small business calculation preference, and

- c. Provide the opportunity for proposing firms to receive a 5% non-small business calculation preference when achieving 25% small business participation through subcontracted efforts.

2. SMALL BUSINESS PREFERENCE

The Small Business preference provides certified small businesses and micro-businesses a calculation preference in the amount of five percent (5%) of the highest scored responsible and responsive proposal submitted by a proposing firm who is not a certified small business. The small business preference is used as a calculation for determining the highest score and does not affect the actual price proposed.

The awarding department grants a certified small business a five percent (5%) Small Business preference on a proposal evaluation when a responsible non-small business has submitted the highest scored, responsive proposal pursuant to the evaluation solicitation method identified in the proposal and the certified small business:

- a. Includes in its bid a notification to the awarding department that it is a small business or that it has submitted to the DGS OSDS a complete application no later than 5:00 p.m. on the bid due date, and is subsequently certified by the Department of General Services as a small business; and
- b. Submits a timely, responsive bid; and
- c. Has been determined to be a responsible bidder.

Firms having pending Small Business or DVBE Certification applications under review by the Department of General Services concurrent with the proposal time frame should contact DGS/OSDS to request an expedite review/approval of their application in order to be considered for the small business preference during the evaluation of this proposal. Contact DGS/OSDS at (916) 375-4940 to obtain information about the application expedite process.

Firms must notify the Department in writing at the time of the proposal submission that they have an application for Small Business or DVBE certification under review at the DGS Office of Small and Disabled Veteran Business Certification, and that they wish to be considered for the Small Business Preference Calculation.

3. NON-SMALL BUSINESS PREFERENCE

The non-small business preference calculation may be applied when:

- a. A responsible non-small business has agreed to subcontract a minimum of 25% of the net price proposed with a certified Small Business,
- b. The non-small business firm is not the highest scored firm, and
- c. The firm has submitted a responsive proposal.

Non-small business firms will be granted a five percent (5%) non-small business preference on a proposal evaluation by the awarding department if a responsible non-small business has been ranked as the highest scored proposal pursuant to the evaluation of the solicitation under the following conditions:

- a. The firm has included in its bid a notification to the awarding department that it commits to subcontract at least twenty-five percent (25%) of its net bid price with one or more OSDS certified small business(s) and
- b. The firm has submitted a timely, responsive bid; and

- c. The firm is determined to be a responsible bidder; and
- d. The firm Identifies OSDS certified small business(s) it commits to subcontract with. The bidder shall list certified SB subcontractors and include their name, address, phone number, a description of the work to be performed, and the percentage (as specified in the solicitation) per subcontractor.

4. NON-SMALL BUSINESS PREFERENCE CALCULATION

The Non-small business calculation preference five percent (5%) is used for bid evaluation purposes when there is at least one competing non-small business subcontracting at least twenty-five percent of its net price proposed to one or more certified small businesses, and award of the contract is made on the basis of the highest scored responsive, responsible bidder. The preference shall be computed as follows:

Firm A - High Score:	1250 Points – Not a certified small business firm
Firm B - Non-SB Proposal:	1195 Points – Prime firm includes 25% to certified SB subcontractor participation
Preference Calculation:	$1250 \times .05 (5\%) = 62.50$
Firm B Non-SB Bidder Bid:	1195.00
Calculated preference	<u>+62.50</u>
	1257.50 points

Award is made to Firm B as the highest scored firm with 1257.50 points.

5. TIES BETWEEN CERTIFIED SMALL BUSINESSES AND DVBE BUSINESSES

In the event of a precise tie between the proposal score of a small business and the proposal score of a disabled veteran enterprise, the award shall go to the disabled veteran that is also a small business.

6. MAXIMUM ALLOWABLE PREFERENCES

In no event shall the amount of the small business or non-small business subcontractor preferences awarded on a single proposal exceed \$50,000, and in no event shall the combined cost of the small business or non-small business subcontractor preference and preferences awarded pursuant to any other provision of law exceed \$100,000. The five percent (5%) calculation preference is used for computation purposes only and does not alter or affect the actual proposal price or the amount of the executed contract. When a certified small business is responsive, responsible, and the highest scored firm, there is no need to compute the small business preference as the small business is already the highest scoring firm.

7. COMMERCIALLY USEFUL FUNCTION (*Government Code 14837*)

A certified small business, micro-business contractor, subcontractor or supplier, must meet commercially useful function requirements under Government Code section 14837(d) (4). Selected firms must perform a “commercially useful function” relevant to this contract.

The term “small business contractor, subcontractor or supplier” means any person or entity that satisfies the ownership (or management) and control requirements in accordance with Government Code Section 14847 (d) (4) and provides services or goods that contribute to the fulfillment of the contract requirements by performing a commercially useful function. 1. Is responsible for the execution of a distinct element of the work of the contract.
2. Carries out contractual obligations by actually performing, managing, or supervising the work involved.
3. Performs work that is normal for its business services and functions.
4. Is not further subcontracting a portion of the work that is greater than that expected to be subcontracted by normal industry practices.
5. Is responsible, with respect to produces, inventories, materials, and supplies required for the contract, for negotiating price, determining quality and quantity, ordering, installing, and, if applicable, making payment
6. Its role is not an extra participant in the transaction, contract or project through which funds are passed in order to obtain the appearance of DVBE participation.

8. SMALL BUSINESS - DVBE PROPOSING FIRM CUF REQUIREMENTS

The Department will determine, to the best of its ability, that your firm meets the criteria above for “commercially useful function”. In responding to this solicitation, you are confirming that, under Government Code 14837 Section 1, (d) (4) above, your business provides goods and/or services meet the definition of “commercially useful function”. All proposing firms are required to provide CUF documentation using the attached State’s Proposing firm Declaration Form GSPD-05-105, Attachment VII, included in the solicitation document. When completing the declaration, proposing firms must identify all subcontractors proposed for participation in the contract. Any proposing firm awarded a contract is contractually obligated to use the subcontractor for the corresponding work defined unless the State agrees to a substitution.

9. PENDING SMALL BUSINESS CERTIFICATION

If your firm is seeking small business certification in order to be considered for small business preference related to this solicitation, you must have: 1) notified DGS, Office of Small Business and DVBE Services (OSDS) that you are responding to a solicitation and are seeking an Expedite Review of your small business certification application in response to the solicitation, 2) provided DGS OSDS with the proposal Key Action Dates page from the RFP itself and 3) must have submitted a complete application with all required forms and documentation to OSDS for review and approval by close of business on the Proposal Submittal due date.

In doing so, the resulting preference calculation applied may result in the award of the proposal when all other technical specifications and proposal requirements are met. I. Disabled Veteran Business Enterprise Program

This solicitation includes DVBE program requirements. Please refer to DWR Form 9526, Attachment IV for instructions about program documentation and compliance.

1. DWR PROGRAM MANAGER PRE-REVIEW OF DVBE DOCUMENTATION

The Department's DVBE Program Manager, offers a pre-review of a proposing firm's DVBE documentation prior to proposal submission. Since non-compliance with the DVBE program is immediate cause for rejection, DWR strongly recommends firms take advantage of this opportunity to ensure they are fully compliant with DVBE Program requirements.

Upon satisfactory review of the firm's DVBE documentation, the DWR Program Manager issues a Notification of Compliance. To request a pre-review of your DVBE documentation, please fax the documentation to the attention of:

Richard Zmuda, DVBE Program Manager
Fax: (916) 654-6511
Voice: (916) 653-9813
Email: SB.DVBE@water.ca.gov

2. DVBE INCENTIVE PROGRAM FOR RFP SECONDARY

Under California Code of Regulations 1896.99.100, the California DVBE Incentive provides responsive and responsible firms the opportunity to receive additional incentive calculations. The incentive is applied at the time of solicitation evaluation when a proposing firm selects a California-certified DVBE subcontractor to provide services or commodities in support of the overall contract effort. Application of the DVBE Incentive may place the proposing firm in line for contract award.

The following are key elements of the DVBE Incentive Program:

- a. The DVBE Incentive is applied during the evaluation process and is only applied to responsive proposals from responsible firms proposing the percentage(s) of DVBE participation for the incentive(s) specified in the solicitation.
- b. DVBE Incentive participation is optional and at the discretion of the proposing firm.
- c. When requesting the Incentive application, bidding firms must complete and return the DWR 9566 California DVBE Incentive included within this solicitation with their proposal at time of submission.
- d. The Incentive is calculated by multiplying the solicitation's total points possible by the level of DVBE participation (%) identified by the responding firm. This amount is then added to the firm's total points to determine if they have the high score. Computation is for evaluation purposes only and cannot be used to achieve any applicable minimum point requirements. (CCR 1896.99.100 (d))
- e. Services or commodities provided by the DVBE firm MUST meet the definition of a "Commercially Useful Function" as defined under Government Codes: 14837; 14838.6; 14839; 14842; 14842.5 and Military and Veterans Code 999 and 999.6. A DVBE firm not meeting CUF regulations will render the responding firm ineligible for the DVBE Incentive application.

3. DVBE INCENTIVE OPTION VS. DVBE PROGRAM REQUIREMENTS

- a. A Department may formally exempt a solicitation from California DVBE Program requirements, but still be required to include the DVBE Incentive when a Department has not met DVBE program goals three of the previous two fiscal years. Proposing firms should review the RFP closely to determine if the California DVBE Program requirement is included in the solicitation language.

- b. California DVBE Program requirements, when included in a solicitation, are not optional and must be met by the proposing firm.

4. DVBE INCENTIVE APPLICATION BASED ON RFP SECONDARY HIGH SCORE METHOD

Because this solicitation is being conducted as a Request for Proposal (RFP), the DVBE Incentive application will be based on the High Score method and follows the guidelines identified below:

- a. Application of the Incentive is based on the High Score Method. The Incentives shall not exceed 5 percent, nor be less than 1 percent of the total possible available points, not including points for socioeconomic incentives or preferences. (CCR 1896.99.120 (b))
- b. Incentive points are included in the sum of non-cost points.
- c. Incentive points cannot be used to achieve any applicable minimum point requirements
- d. Incentive points may be a “desirable” administrative requirement that awards points based on amounts of participation.

Please see Section C. Proposal Requirements and Information, item 6 Evaluation Process for additional instructions and examples regarding application of the DVBE Incentive High Score Method.

**CALIFORNIA DISABLED VETERAN BUSINESS ENTERPRISE
PROGRAM REQUIREMENTS
DWR 9526, ATTACHMENT V
(FOR NON-IT SERVICES)**

BIDDER IS ADVISED TO READ THE REQUIREMENTS AND INSTRUCTIONS CAREFULLY BEFORE BEGINNING

AUTHORITY: The Disabled Veteran Business Enterprise Goal Program is established in Public Contract Code (PCC) Section 10115 et seq., Military and Veterans Code (MVC) 999 et seq. and California Code of Regulations (CCR) Title 2, Section 1896.6 et seq.

Unless specified otherwise in this solicitation the minimum DVBE participation percentage goal is three (3) percent. A DVBE Incentive may be given to bidders who provide DVBE participation unless stated elsewhere in the solicitation the Incentive has been waived.

INTRODUCTION

The bidder must comply fully with DVBE Program requirements to be considered responsive to requirements of this solicitation. Failure to submit a complete response may result in a non-responsive determination, in which case, the firm will have their bid rejected and will be ineligible for award. The bidder must complete the identified forms contained within this solicitation to satisfy the program requirements. Bids or proposals (hereafter referred to as "bid" or "bids") that fail to submit all the required forms will be deemed non-responsive and will be rejected. DWR may request a bidder to correct/clarify DVBE documents that are deemed to have administrative or clerical error(s). DVBE program administrative/clerical errors are minor non-substantive errors and do not impact the bid outcome. Prior to correction of any administrative/clerical error(s), DWR will first verify the bidder has complied with DVBE program requirements.

All bid submissions in response to the solicitation's DVBE program requirements will be verified by the Department. If, during the verification process, evidence of an alleged violation is found, the State shall initiate an investigation in accordance with the requirements of PCC 10115 et seq., and MVC 999 et seq. and follow investigatory procedures by the CCR 1896.80. Contractors found to be in violation of certain provisions may be subject to loss of certification, penalties and/or contract termination.

Only firms certified by the State of California, Office of Small Business and DVBE Services (OSDS) may be used to satisfy the DVBE program requirement.

PROGRAM DEFINITIONS

COMMERCIALLY USEFUL FUNCTION (California Code of Regulations, Title 2, Section 1896.71 (I))

DVBE firms must perform a "commercially useful function" relevant to this contract. The term "DVBE contractor, subcontractor or supplier" means any person or entity that satisfies the ownership (or management) and control requirements of CCR 1896.61 (f); is certified in accordance with CCR 1896.70 and provides services or goods that contribute to the fulfillment of the contract requirements by performing a commercially useful function. As defined in MVC 999, a person or an entity is deemed to perform a "commercially useful function" if a person or entity does **all** of the following:

1. Is responsible for the execution of a distinct element of the work of the contract
2. Carries out the obligation by actually performing, managing, or supervising the work involved
3. Performs work that is normal for its business services and functions
4. Is not further subcontracting a portion of the work that is greater than that expected to be subcontracted by normal industry practices
5. Is responsible, with respect to products, inventories, materials, and supplies required for the contract, for negotiating price, determining quality and quantity, ordering, installing, if applicable, and making payment; and
6. Its role is not an extra participant in the transaction, contract or project through which funds are passed in order to obtain the appearance of DVBE participation.

DISABLED VETERAN

A disabled veteran, for purposes of DVBE certification eligibility, is defined as a veteran of the military, naval or air services of the United States, with at least a 10 percent service-connected disability and who is a resident of the State of California.

DISABLED VETERAN BUSINESS ENTERPRISE (DVBE)

DVBE is a business enterprise certified by the Office of Small Business and DVBE Services (OSDS) as meeting all of the following criteria:

- Managed by and with the daily business operations controlled by one or more disabled veterans
- Sole proprietorship, corporation or partnership with its home office located in the United States which is not a branch or subsidiary of a foreign corporation, firm or other business

DVBE INCENTIVE

An incentive offered to firms utilizing DVBE firms in their contract efforts. The incentive applied will be equal to the DVBE commitment level identified solicitation response. For contracts that include a minimum participation level of three percent, lowest level of incentive applied shall be three percent. For contracts exempt from DVBE, but include the option of DVBE participation, the incentive shall begin at 1 percent and shall not be higher than five (5) percent. Application of the incentive may result in the award of a contract to a bidder using DVBE subcontractors. Use of the incentive cannot be used to replace a certified small business's low bid with that of a non-small business.

DVBE PROGRAM COMPLIANCE OPTIONS

Bidders responding to this solicitation must complete and fully document compliance with the following:

MEETING DVBE REQUIREMENTS

DVBE participation can be achieved by a certified DVBE firm bidding as a prime or when a non-DVBE firm identifies and makes a commitment to use identified and certified DVBE(s) to fulfill the solicitation's stated DVBE participation goal.

A bidder commits to meet or exceed the minimum DVBE participation requirement of three (3) percent, or as otherwise specified in the solicitation. Bidder uses Option 1 – Bidder is a Certified DVBE, or Option 2 Non-DVBE Bidder. **Failure to complete and submit the required forms as instructed will render the bid non-responsive and ineligible for award.**

OPTION 1 – BIDDER IS CERTIFIED DVBE

1. Bidder commits to performing at least three (3) percent of the contract amount (unless specified otherwise) with the prime bidder's firm or in combination with other DVBE firms.
2. Bidder must document DVBE participation using the DWR 9526, Attachment 2.
3. Bidder shall submit proof of its commitment by submitting written confirmation and acceptance from the identified DVBE subcontractor using forms contained within DWR 9526, Attachment 2.
4. Provide evidence of DVBE certification – obtained through the Office of Small Business and DVBE Services (OSDS).

OPTION 2 – NON-DVBE BIDDER

1. Commit to using a certified DVBE firm for at least three (3) percent (unless specified otherwise) of the bid amount.
2. Bidder must document DVBE participation using the DWR 9526, Attachment 2.
3. Bidder shall submit proof of its commitment by submitting written confirmation and acceptance from the identified DVBE subcontractor using forms contained within DWR 9526, Attachment 2.
4. Provide evidence of DVBE certification – obtained through the Office of Small Business and DVBE Services (OSDS).

DWR EXHIBIT E ADDITIONAL PROVISIONS - DVBE LANGUAGE

DWR Exhibit E "Additional Provisions" contains additional clauses related to the DVBE program and is relevant to the bidder because language contained in Exhibit E defines contract and contractor obligations related to the DVBE program that will be part in the final contract. Bidder is advised to carefully review Exhibit E, Additional Provisions to understand relevant obligations pertaining to the DVBE program:

Contract Amendments – DVBE Program Requirements

The clause explains the requirements and obligations of the contractor and the DVBE program related to subsequent contract amendments

Contract Audits

The clause explains the requirements and obligations of the contractor related to the review or copying of all records pertaining to the performance of its contract as pertains to the DVBE program

Contractor SB/DVBE Subcontractor Payment Certification

The clause explains the requirement made of the contractor to submit Small Business and DVBE Payment Certification, [DWR Form 9683](#), to the Department within 60 days of contract expiration.

DVBE Quarterly Reports

The clause explains the requirements and obligations of the contractor related to reporting DVBE activity using the DVBE Activity Report, [DWR Form 9553](#), to identify and report the activity or non-activity within the quarterly period reported.

Substitution of DVBE Firms

The clause explains the requirements, under Military and Veterans Code 999.10, as to when the contractor, subject to the approval of DGS Office of Small Business and DVBE Services, may replace a DVBE firm identified in its bid or offer with that of another DVBE firm.

DVBE INCENTIVE

In accordance with Section 999.5(a) of Military and Veterans Code an incentive will be applied to bidders who commit to DVBE participation unless stated elsewhere in the solicitation that the DVBE Incentive has been waived. For evaluation purposes only, the State shall apply an incentive to bids proposing California certified DVBE participation identified on DWR Form 9526 page 6, Attachment 1, Bidder Certification DVBE Participation. Participation commitment will be confirmed by the State. The incentive amount for awards based on low price will vary in conjunction with the proposed DVBE participation. Unless a table that replaces the following has been expressly established elsewhere within the solicitation, the following percentages will apply for awards based on low price:

Confirmed DVBE Participation	DVBE Incentive
3.0 up to 3.99%	3%
4.0 up to 4.99%	4%
5% or Higher	5%

As applicable:

- Awards based on low price: the net bid price of responsive bids will be reduced (for evaluation purposes only) by the amount of the DVBE incentive as applied to the lowest responsive net bid. If the #1 ranked responsive, responsible bid is from a California certified Small Business, the only bidders eligible for the incentive will be California certified Small Businesses. The incentive adjustment for awards based on low price cannot exceed five (5) percent or \$100,000, whichever is less, of the #1 ranked net bid. When used in combination with a preference adjustment (SB/TACPA), the cumulative adjustment amount is not to exceed \$100,000.
- Awards based on highest score: the solicitation shall include an individual requirement that identifies incentive points for DVBE participation. For further information regarding the incentive-based-points application process, please review Item 7. Evaluation and Selection Process of this solicitation.

DVBE PROGRAM COMPLIANCE NOTIFICATION

Upon request, the department's Program manager will provide a pre-review of DVBE documentation for bidders to ensure they are DVBE program compliant. Bidders must submit their documents at least three (3) days prior to final bid submission. Upon verification of program compliance, the manager will issue a Notification of Compliance confirming the bidder has satisfied DVBE program requirements related to this solicitation. Bidders are advised to seek a pre-review of their documentation. Documents for review may be emailed to: SB/DVBE@water.ca.gov

4. Background

Executive Order N-10-19 stipulated the creation of a Water Resilience Portfolio for the State of California. The Draft Portfolio has been released and contains a series of proposals whose aim is to improve California's ability to adaptively manage water resources. Water Resilience Portfolio Proposal 17 specifies that the State will complete an independent feasibility analysis of water importation options for the Salton Sea. To facilitate that process, DWR seeks to procure the services of an independent third-party evaluation team (Panel) to conduct a Feasibility Study to objectively evaluate the merit of water importation as a potential long-term strategy for restoration of the Salton Sea.

Additionally, the State Water Resources Control Board adopted revised Order WRO 2002-0013, which sets a framework for Salton Sea restoration and mitigation and calls for the California Natural Resources Agency (CNRA) to develop a long-term plan for Salton Sea restoration which may include water importation. CNRA initiated the work in 2017 with the following steps taken:

- A. Consultant developed preliminary water importation feasibility study for DWR prior to 2017.
- B. Request for Information (RFI) was posted on CNRA website in December 2017.
- C. Eleven (11) proposals were received by the March 2018 due date in the electronic format. All proposals were reviewed by the long-range committee and are posted on the CNRA website and available to the public.

5. Objectives

The objective of this Request for Proposal (RFP) is to conduct a feasibility study of the 2017 RFI proposals and to elucidate whether or not water imports to the Salton Sea are achievable. The Scope Of Work (SOW) includes the following actions:

- A. Administrative project support of the contract.
- B. Creating an Independent Review Panel (Panel).
- C. Evaluating the 2017 RFI proposals and determining if there are any gaps in the proposals that would affect feasibility and facilitate feedback based on a gap analysis to RFI proposers and allow for a resubmittal of their proposals if necessary.
- D. Facilitating an additional solicitation if the panel determines that the gaps are significant enough to warrant an additional call for alternatives.
- E. Developing additional alternatives by utilizing non-proprietary portions of the proposals and the subject matter expertise of the panel.
- F. Conducting a feasibility analysis of the existing proposals, amended proposals, new proposals, and panel alternatives to determine what has technical and economic feasibility.
- G. Preparing interim and final reports and presentations of the findings.

This SOW will not address subsequent phases that would be necessary to implement a water importation project such as, contractor selection for design, construction, operations and maintenance, and funding.

6. Description of Work

DWR is seeking interested and qualified applicants to advance our understanding of the feasibility of water importation by providing independent third-party evaluation services and a feasibility analysis in support of the State's planning objectives for the Salton Sea Management Program (SSMP).

A. Task 1: Project Support

Contractor will be responsible for the following activities associated with this contract:

1) General Project Management

The Contractor will appoint a project manager to work directly with the Panel, DWR, California Department of Fish and Wildlife (CDFW), and CNRA staff. The Contractor will provide general project management assistance for the implementation of this SOW. Tasks will include developing and managing project tasks, assessing resource needs and schedules, conducting or attending meetings with public agencies and stakeholders, and overseeing subcontracted work. Contractor will submit invoices with supporting documentation, as needed, to DWR for services completed and that conform to the cost breakdown established in the Cost Proposal Worksheet.

2) Documentation of Work

The Contractor will document all aspects of work conducted under this Contract. Examples of documentation can include monthly progress reports, final reports, invoices, and the deliverables identified in the SOW.

3) Project Coordination

The Contractor and Panel will coordinate with DWR Salton Sea program managers and staff, CDFW, and CNRA staff to ensure that work products are integrated, consistent, and are of a high quality. The Contractor and Panel will work proactively and cooperatively to identify, communicate, and resolve potential problems or issues that could disrupt the achievement of program objectives within the budget and schedule. The Contractor and Panel will collaborate strategically, confer with staff, meet online or in person, and recommend approaches and actions for the project success.

Task 1 Deliverables: Monthly progress reports, interim reports and presentations, draft and final reports, invoices, and deliverables identified in SOW, as well as preliminary reports to be provided every three (3) months beginning in month nine (9) that summarize the Panel's findings to that point in time.

B. Task 2: Independent Review Panel (Panel)

Upon an award of the contract, the Contractor will create and manage an independent review panel to provide the services indicated below to help assess the merit and feasibility of water importation to the Salton Sea. The Contractor will ensure that the Panel performs the tasks in the RFP as well as interim reports and all deliverables. In addition to the work outlined in this RFP, the Panel members will follow DWR standards and procedures in performing the following:

- 1) Review technical information, design assumptions, studies, analysis, drawings and other documents provided by DWR, CDFW, and CNRA.
- 2) Attend meetings organized by DWR, CDFW, and CNRA staff.
- 3) Work cooperatively with other contractors, consultants, and DWR, CDFW, and CNRA staff.
- 4) Provide informal findings, conclusions, and recommendations to DWR and CNRA staff.
- 5) Present formal results of findings to members of the public.

Specifically, the Contractor will: Use the Independent Panel Criteria below to perform an exhaustive search to identify a minimum of five (5) and no more than seven (7) qualified Panel members and provide the basis for the recommendations (e.g. statement of qualifications and curriculum vitae). The Panel members will be asked to review high risk and complex technical topics; therefore, the Panel members must have documented expertise and industry-recognized relevant work experience. DWR will provide an endorsement of the proposed Panel members to ensure that the Panel contains sufficient expertise to complete the tasks in the SOW and that the Panel can provide neutral, third-party assessments, advice, and recommendations. All Panel members are expected to provide meaningful input.

Independent Panel Criteria

The Panel must consist of:

- 1) A minimum of one and no more than three Panel members that have knowledge, familiarity, and experience designing and constructing large water supply, water treatment, water conveyance systems (including tunnels or underground pipelines/penstocks), renewable or conventional energy or hydropower systems, or similar facilities and appurtenant civil structures at a large regional, statewide or international scale.
- 2) A minimum of one and no more than two Panel members that have knowledge, familiarity, and experience in long term operations and maintenance of large water supply, water treatment, water conveyance systems (including tunnels or underground pipelines/penstocks), renewable or conventional energy or hydropower systems, or similar facilities and appurtenant civil structures at a large regional, statewide or international scale.
- 3) A minimum of one Panel member that has experience facilitating collaborative processes and stakeholder outreach involved in technical water resources programs and projects such as water conveyance and storage, integrated regional water management, water supply, water conservation and dam and flood safety at the local, regional, statewide, and international levels.
- 4) A minimum of one Panel member that has experience analyzing, synthesizing, and distilling complex information. The Panel member(s) must have relevant training, education, certifications, and experience in the fields of water quality, air quality, hydrology, hydraulics, ecology, biology, and economics.
- 5) A minimum of one Panel member that has knowledge, familiarity, and experience working with International, Federal, State, and Local environmental laws, regulatory compliance, and permitting.

Minimum requirements for all Panel members include:

- a. Relevant education

- b. 10+ years of experience in one or more of the independent Panel criteria
- c. History of accomplishments demonstrated by completed projects and publications
- d. No conflict of interest
 - i. No current Salton Sea contractors
 - ii. Not associated with any RFI proposer
 - iii. If a proposed Panel member has been involved in project(s) at the Salton Sea, and believes that they meet the requirements of this RFP and should not be rejected, the Panel member must include an explanation for why they believe they should not be rejected. Contractors and Panel members must comply with DWR's Conflict-of-Interest policy for the Salton Sea design-build program.
- e. Must provide a Curriculum Vitae (CV) (no more than 10 pages) and Statement of Qualifications (no more than 5 pages) for verification for every Panel member.

Task 2 Deliverables: A qualified Panel of experts for the duration of the contract with all supporting documentation.

C. Task 3: Evaluate Existing Proposals and Gap Analysis

Eleven (11) proposals were submitted for developing a long-term plan for Salton Sea management. The proposals describe approaches for creating a sustainable Salton Sea environment with water importation, including development of energy sources, conveyance, intake, and pumping structures.

Specifically, the Contractor will direct the Panel to:

- 1) Develop a process to conduct a feasibility study of the water importation proposals available here <http://saltonsea.ca.gov/planning/2018-salton-sea-water-importation-proposals>.
 - a. Proposals were received through the 2017 *Request for Information for Salton Sea Water Importation Projects* (2017 RFI), available here: <http://resources.ca.gov/wp-content/uploads/2017/12/Salton-Sea-Water-Import-RFI.pdf>, and evaluated by the long-range committee. The Independent Panel will review and consider the results of the long-range committee's work but must use its own independent judgment to evaluate the proposals.
 - b. Facilitate feedback to the RFI bidders, allowing them to fill in any gaps discovered by the Panel assessment and re-submit their proposal for review.
- 2) If necessary, develop and implement a process to accept additional water importation proposals modeled after the 2017 RFI solicitation.
 - a. Evaluate new proposals utilizing the methods developed for the RFI proposal evaluation.
- 3) Evaluate the components of each water importation proposal to determine whether any portion of each proposal may be technically feasible, even if the proposal overall is not.
- 4) Utilize industry subject matter expertise to propose additional alternatives not included in the RFI submittals and evaluate utilizing the methods developed for the RFI proposal evaluation.

The process to evaluate proposals developed by the Contractor should include:

- a. Water source identification
- b. Design and engineering; including energy sources, conveyance and pumping facilities and intake structures
- c. Construction of the proposed structure or system
- d. Long term operations of the proposed structure or system
- e. Water treatment facilities

- f. Water and Land use
- g. Flood control and climate change impacts
- h. Environmental parameters such as: water quality, air quality, hydrology, hydraulics, ecological impacts, biology, restoration, and endangered species
- i. International, federal, State, and local environmental laws, regulatory compliance, and permitting
- j. Stakeholder strategy and coordination (International, Federal, State, Local)

Task 3 Deliverables: A report summarizing the findings with the proposals that are recommended for a full feasibility analysis. The report includes all data and documentation on processes and decisions made throughout the review and evaluation process.

D. Task 4: Feasibility Analysis for Selected Proposals

The Contractor will direct the Panel to conduct an analysis of selected proposals to assess the feasibility of water importation as a long-term strategy for restoration of the Salton Sea. In the event that no proposals met the selection criteria, the panel will seek an advice from DWR prior to proceeding with Task 4.

Feasibility Analysis

Contractor will direct the Panel to validate construction and long-term operation related impacts, risks, and estimates of construction for each option and validate the schedule for each option.

The Feasibility Analysis should include but not be limited to:

- 1) Economic Analysis
 - a. Assess the total cost of construction and annual cost of operation and maintenance.
 - b. Assess the expected life of the project.
 - c. Calculate the benefits when the project is implemented, such as improved human health, economic revitalization of the region, increased construction of residential, industrial, and recreational facilities, and increased tax revenues.
 - d. Calculate the cost of inaction based on negative effects of poor air quality and declining environmental habitat.
- 2) Identify strengths and weaknesses of the proposed project.
- 3) Identify opportunities and threats to viability of the project.
- 4) Validate assumptions and constrains set in the proposal. For example:
 - a. Is it technically possible to implement and operate?
 - b. Is it sustainable for the proposed life of the project?
 - c. Are the costs consistent with the scope of the project?
 - d. Is the construction schedule realistic?
 - e. Is it likely to be permitted for construction and long-term operations given current international, federal, State, and local environmental laws?

Task 4 Deliverables: A completed feasibility analysis for each selected proposal. The report must also include all data and documentation on processes and decisions made throughout the review and evaluation process.

E. Task 5: Summary Report and Final Deliverable

The Contractor will direct the Panel to provide a summary report describing the findings in each task and must also identify any lack of information or areas that require significant additional research. The Panel will also present their finding at meetings or additional events as needed.
