

## **Questions for public input on draft Project Description SSMP Ph. I: 10-year Plan**

### **Goals and Objectives**

Based on the purpose and need of the project and project scope:

Do you have any comment on Draft Goals and Objectives?

Would you suggest any additional goals and objectives that should be included/used?

### **Proposed Aquatic Habitat Restoration Projects**

Do you have any comments on the amount, types, locations of proposed aquatic habitat restoration projects?

Do you think that additional projects are needed in different locations than shown on the map and if so what type and why?

Are there project design features we should consider?

### **Proposed Dust Suppression and Restoration Projects**

Do you have any comments on the amount, types, locations of proposed dust suppression and restoration projects?

Do you think that additional projects are needed in different locations than shown on the map and if so what type and why?

### **Public Uses and Amenities**

What types of public amenities would you like to see that may be compatible with the project goals and objectives?

### **Project Effects Analysis**

What types of environmental and other effects from implementing the proposed projects should we consider in our environmental assessment?
